Health-care — The World's Way

—
❧ “Perilous times shall come” ❧
—

2 Timothy 3:1-4

“This know also, that in the last days perilous times shall come. For men shall be lovers of their own selves, **covetous** [Grk. *lovers of money*], incontinent [i.e., *intemperate*], . . . despisers of those that are good, . . . lovers of pleasures more than lovers of God.”

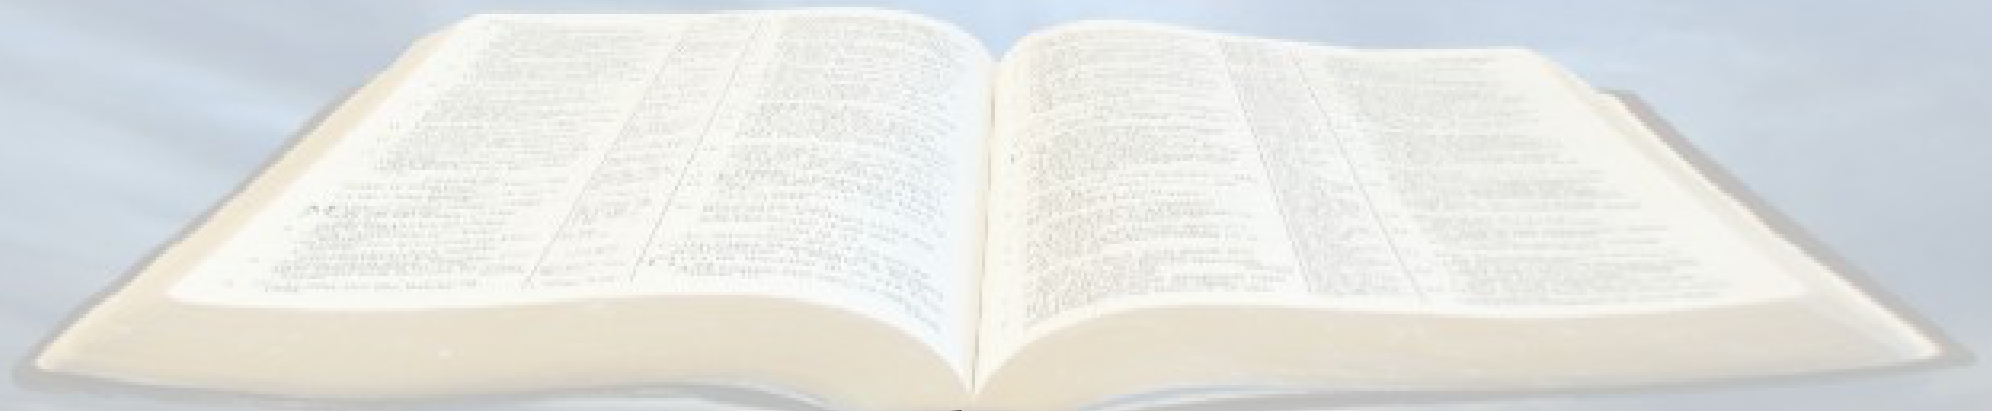

The Signs of Perilous Times

1. lovers of their own selves (*philautoi*)
2. covetous – *lovers of money* (*philarguroi*)
3. incontinent – *Intemperate* (*akrateis*)
4. despisers of those that are good (*aphilagathoi*)
5. lovers of pleasure (*philedonoi*)

1 Timothy 6:10

“... the **love of money** [Grk. *philarguros*] is the root of all evil ...”

1 Corinthians 15:32

“... let us eat and drink; for to morrow we die.”

An open book with text on the pages, set against a background of a blue sky and water. The book is open, showing two pages of text. The background is a soft-focus image of a blue sky and water, with the book's reflection visible in the water below.

Jeremiah 2:13

“For my people have committed two evils; they have forsaken me the fountain of living waters, and hewed them out cisterns, broken cisterns, that can hold no water.”

Two Great Evils

God's people have:

1. Turned away from God – the source of life
2. And have devised their own source of life

Luke 21:31

“... when ye see these things come to pass, know ye that the kingdom of God is nigh at hand.”

Review & Herald, Nov. 14, 1899, p. 736.23

... there are thousands of persons who will dose themselves with drugs and patent medicines, or put themselves under the power of satanic influences to be “healed,” rather than put themselves through a hot bath, and like simple and sensible treatment. Only about a month ago a little baby was taken dangerously ill. The doctor prescribed such simple but effective treatment. And he was met by the mother’s, “Oh, can’t you give some medicine that will do it quicker than that? That is so much trouble”!

Review & Herald, Nov. 14, 1899, p. 736.24

That single incident tells the true story of multitudes. How can such persons have God's saving health? How can they be kept from the snares of Satan, which are now laid everywhere to meet this sentiment with signs, and lying wonders, and deceiving miracles – all to “heal” without “so much trouble.”

∞ Editorial Notes ∞

“Healthful Living” (1897-98), p. 243.1-2

Many, instead of seeking to remove the poisonous matter from the system, take a more deadly poison into the system to remove a poison already there.
Many parents substitute drugs for judicious nursing.

“Healthful Living” (1897-98), p. 243.3

Drugs never cure disease; they only change its form and location. . . . When drugs are introduced into the system, for a time they seem to have a beneficial effect. A change may take place, but the disease is not cured. It will manifest itself in some other form. . . . The disease which the drug was given to cure may disappear, but only to reappear in a new form, such as skin diseases, ulcers, painful, diseased joints, and sometimes in a more dangerous and deadly form. . . . Nature keeps struggling, and the patient suffers with different ailments, until there is a sudden breaking down in her efforts, and death follows.

Testimonies Vol. 5, p. 311.1

My dear friends, instead of taking a course to baffle disease, you are petting it and yielding to its power.

You should avoid the use of drugs and carefully observe the laws of health. . . . drugging should be forever abandoned; for while it does not cure any malady, it enfeebles the system, making it more susceptible to disease.

“Ministry of Healing,” p. 126.2a

A practice that is laying the foundation of a vast amount of disease and of even more serious evils is the free use of poisonous drugs. When attacked by disease, many will not take the trouble to search out the cause of their illness. Their chief anxiety is to rid themselves of pain and inconvenience.

“Ministry of Healing,” p. 126.2b

So they resort to patent nostrums, of whose real properties they know little, or they apply to a physician for some remedy to counteract the result of their misdoing, but with no thought of making a change in their unhealthful habits. If immediate benefit is not realized, another medicine is tried, and then another. Thus the evil continues.

Article: I.G. Farben

“In the early half of the 20th century, petrochemical giants organized a coup on the medical research facilities, hospitals and universities. The Rockefellers did this by sponsoring research and donating monetary gifts to US universities and medical schools where research was drug based and further extended this policy to foreign medical establishments via their International Education Board. Those who were not drug based were refused funding, and were soon dissolved in favour of the more lucrative pharmaceutical-based project.

“In 1939 the ‘Drug Trust’ alliance was formed by the Rockefeller Empire and I.G. Farben. After the war, I.G. Farben was dismantled but later emerged in the many guises of the companies with whom they had signed cartel agreements.

“The Rockefeller Empire – in tandem with the Chase Manhattan Bank now owns over half of the USA’s pharmaceutical interests and is the largest drug manufacturing combine in the world. Since the war [WWII] the drug industry has steadily netted an ever increasing profit from sales of drugs to become the second largest manufacturing industry in the world next to the arms industry (also owned by the self same Elite agencies).

“Today, health care is a multi-billion pound [U.K. currency] industry world-wide with ever increasing expenditure by taxpayers into the system which funnels the majority of this staggering profit into the hands of the drug manufacturers who are, as we have seen, headed by the major Elite manipulators of this century. These companies now control the vast majority of health care and set the standards for the practice of medicine in all developed countries.”

“The Brotherhood: part 9 – The Pharmaceutical Racket”

“The Rockefeller Foundation was first set up in 1904 and called the General Education Fund. . . . in 1910 and through long finagling and lots of Rockefeller money got the New York legislature to issue a charter on May 14, 1913.

“It is therefore not surprising that the House of Rockefeller has had its own ‘nominees’ planted in all Federal agencies that have to do with health. So the stage was set for the ‘education’ of the American public, with a view to turning it into a population of drug and medico-dependents, with the early help of the parents and the schools, then with direct advertising and, last but not least, the influence the advertising revenues had on the media-makers.

“A compilation of the magazine Advertising Age showed that as far back as 1948 the larger companies in America spent for advertising the sum total of \$1,104,224,374, when the dollar was still worth a dollar Of this staggering sum the interlocking Rockefeller-Morgan interests (gone over entirely to Rockefeller after Morgan’s death) controlled about 80 percent, and utilized it to manipulate public information on health and drug matters – then and even more recklessly now.”

“Pharmaceutical companies rely upon ill health in the population to survive and reap their profits. No drug company has a vested interest in curing disease. They do, however, have a massive vested interest in maintaining ill-health, creating disease and manufacturing chemicals which will promote this under the guise of ‘therapy’ for the symptoms – rarely ever the cause – of disease.”

∞ **Letter to Sanitarium Workers (June 3, 1907)** ∞

Dr. Lucian L. Leape opened medicine's Pandora's box in his 1994 JAMA paper, "Error in Medicine"

The number of fatalities . . . is an annual 1,189,576 iatrogenic [medically caused] deaths, or **over ten jumbo jets crashing every day.**

. . . a total of 164 million people, approximately 56% of the population of the United States, have been treated unnecessarily by the medical industry – in other words, **about 50,000 people per day.**

"Death by Medicine"

By Gary Null PhD, Carolyn Dean MD ND, Martin Feldman MD, Debora Rasio MD, Dorothy Smith PhD, 2003

Leape acknowledged that the literature on medical error is sparse and we are only seeing the tip of the iceberg. He said that when errors are specifically sought out, reported rates are “distressingly high”. He cited several autopsy studies with rates as high as 35-40% of missed diagnoses causing death. He also commented that an Intensive Care Unit [ICU] reported an average of 1.7 errors per day per patient, and 29% of those errors were potentially serious or fatal.

“Death by Medicine”

By Gary Null PhD, Carolyn Dean MD ND, Martin Feldman MD, Debora Rasio MD, Dorothy Smith PhD, 2003

. . . First, he found that each patient had an average of 178 “activities” (staff/procedure/medical interactions) a day, of which 1.7 were errors, which means a 1% failure rate. To some this may not seem like much, but putting this into perspective, Leape cited industry standards where in aviation a 0.1% failure rate would mean 2 unsafe plane landings per day at O’Hare airport; in the U. S. Mail, 16,000 pieces of lost mail every hour; or in banking, 32,000 bank checks deducted from the wrong bank account every hour.

. . . It is evident that the American medical system is the leading cause of death and injury in the United States.

How many shrink from the purifying process! They are unwilling to live out the truth, unwilling to appear singular in the eyes of the world. It is this mingling with the world which destroys our spirituality, pureness, and zeal. Satan's power is constantly exercised to stupefy the sensibility of God's people, that their consciences may not be sensitive to wrong, and that the sign of distinction between them and the world may be destroyed.
